

## ELEVATOR SPEECH

Make the most of your turbine operation's safety management initiatives with Performance Vector from USAIG. We carefully designed our new safety program to work within your existing safety protocols. To fill in the gaps. Reinforce your safety culture. Keep you up-to-date with the latest information. Provide expert support and guidance for your safety management system. And help fulfill a range of industry-standard safety programs and certifications. Performance Vector emphasizes the importance of human factors in eliminating error. Take advantage of self-paced online individual training. Benefit from our series of webinars that delivers current human factors training to your entire flight department. Best of all, it's free to any turbine operation insured through USAIG. And each year you renew your policy, you qualify for additional complimentary safety program support – continually refreshed and kept up-to-date with leading and emerging trends in training. Performance Vector – it's just one of the many advantages of insuring through aviation leader USAIG.

- Individual training - online courses in fatigue management; human factors training for pilots or aircraft technicians; or line service training tuition reimbursement of up to \$500 per individual enrolled in an industry recognized curriculum.
- Human factors webinars for groups – an entire flight department or relevant divisions.
- Industry-leading SMS support with access to safety data and risk assessment tools.
- Credits redeemable by helicopter operators toward select flight training.
- Complimentary for insured operators of turbine-powered aircraft.
- Additional Performance Vector allowance each time policy is renewed.
