A Global Leader in Aviation Insurance

For more than eight decades, we've been a leading provider of insurance to the aviation and aerospace industries. We've been there, time after time, to support the innovations that have pushed aviation to the next chapter.

Who are we, exactly?

- United States Aircraft Insurance Group (USAIG)
- United States Aviation Underwriters (USAU)

Our organizational structure allows us to deliver the best aviation insurance coverage available.

USAIG

USAU is neither a single insurance company nor a corporation. It's a pool of member firms, all highly rated property and casualty insurance and reinsurance companies. We're proud to say that our members all carry A.M. Best ratings ranging from A to A++. The USAIG pool arrangement has worked for the aviation industry since 1928. [Review current ratings](#) by Standard & Poor's, Moody's Fitch and A.M. Best for each of our member companies.

USAU

USAU manages the insurance pool and underwrites on behalf of the member companies within the USAIG pool. Its duties include account selection, specifying rates and coverages, issuing the policies and handling claims on USAIG's coverages. In addition to our headquarters in New York City's financial district, we maintain a nationwide network of underwriting and field claims offices. Each office serves the needs of policyholders and local or specialized aviation insurance professionals within its territory, ensuring that help is nearby when you need it. USAU is a subsidiary of General Re Corporation, a Berkshire Hathaway company.

Canadian Aircraft Insurance Group/Canadian Insurance Managers

Similar to USAIG in structure, the Canadian Aircraft Insurance Group serves individuals and companies located in Canada. CAIG, founded in 1937, is managed by Canadian Aviation Insurance Managers, Ltd., a wholly-owned subsidiary of USAU. CAIM maintains an office in Toronto to serve policyholders and insurance agents and brokers throughout the provinces and territories.

Our Mission Today

"To remain the best aviation underwriting organization in the world. This means continuously improving our products, services and capabilities to meet the needs of our customers worldwide, and to respond to the challenges of a dynamic business environment. We are dedicated to creating a compelling value exchange for our customers between our products and services and adequate compensation for the risks we assume. These activities shall be marked by integrity and professionalism."

United States Aircraft Insurance Group (USAIG) provides a full spectrum of coverage options for owners, operators, manufacturers and maintainers of corporate, private and commercial aircraft. This U.S.-based insurance pool was founded in 1928 by World War I pilots and businessmen David Beebe and Reed Chambers. In its efforts to remain the world's leading aviation underwriting company, USAIG constantly innovates to deliver unique aviation insurance products and services. That includes introducing the industry's first science-based, risk-reducing fatigue-management solution. USAIG is managed by the United States Aviation Underwriters, Inc. (USAU), which is responsible for selecting business submitted by licensed producers, underwriting, binding coverages, issuing policies, arranging and collecting reinsurance, collecting premiums and settling claims on the pool's behalf. It is headquartered in the New York City financial district and maintains the industry's largest network of underwriting and field claims offices. USAU's wholly owned subsidiary, Toronto-based Canadian Aviation Insurance Managers (CAIM) manages the Canadian Aircraft Insurance Group (CAIG) insurance pool. USAIG is a subsidiary of General Re Corporation, a Berkshire Hathaway company. www.usaig.com
