

eLearning Hazardous Materials/ Dangerous Goods (Will-Not-Carry)

With FlightSafety's eLearning course, students will become familiar with the fundamentals for recognizing Hazardous Materials (HAZMAT), as well as the regulations for will-not-carry operators. Specifically, by the end of this course, students will be able to:

- Define HAZMAT's general philosophy and purpose
- Understand limitations and exceptions for certain hazardous materials.
- Identify the nine classifications of hazardous materials, their labelling and marking, and transport documents used in HAZMAT.
- Recognize potential undeclared hazardous materials that may warrant a closer look.
- Determine the correct emergency procedures to follow in the event of a HAZMAT incident.
- Meets ICAO and IATA Training Requirements
- Streamlined the course to focus on General Aviation needs, with an emphasis on limitations and provisions for passengers and crew
- Added information regarding lithium batteries and dealing with lithium battery emergencies
