

AIRPORT LIABILITY

Airport Liability Coverage for Private and Fixed-Base Operators

If you operate from or do business at private, municipal or commercial airports, you are exposed to liability claims that could result from injuries to members of the general public or damage to their property. Working with your aviation insurance professional, we can customize our liability protection to match your operation and exposure – including any or all of these coverages.

- ▶ Premises
- ▶ Products/completed operations
- ▶ Contractual
- ▶ Personal injury
- ▶ Premises medical payments
- ▶ Hangarkeeper's liability

Additional coverages can be added to match your unique operational needs.
