## **USAIG and APS offer policyholders two ways to strengthen defenses against loss of control in-flight.**

Are you ready to advance and update your professional knowledge relating to airplane Upset Prevention and Recovery Training (UPRT) topics?

Access the **FREE eLearning UPRT Insights Course** by APS below.

The course offers an overview of the APS Online UPRT Academy concepts to relay essential learning elements regarding advanced aerodynamics related to your safety.

Also, did you miss our May 2020 webinar? Want to see it again? We're making a recording of the session available again now-for free.

### **Three Best Practices to Overcome Your Deadliest Enemy: Loss of Control** (Originally aired: Tuesday, May 12, 2020)

Hear APS experts discuss important upset prevention and recovery topics from the cockpit perspective, offering real world guidance you can put to use. The session underscores the lethal threat of LOC-I, identifies practices you can implement to enhance prevention and readiness to recover from upsets; and highlights additional resources available. Request a free 7-day recording link below.
