

Operating safely is vital to your success.

Let us help with that.

- As a UAS policyholder, you can receive **SafetyPoints** annually.
- **SafetyPoints** are accepted by two providers of essential UAS services.

Step 1

Choose a provider for
your SafetyPoints:
USI or AlarisPro.

SafetyPoints function like a gift card with your selected provider. If registered within one year of issue, they remain valid until three years after their issue date.

Step 2

Ask your broker or
underwriter to enroll your UAS
policy.

Read more about all USAIG safety services under the 'Safety' tab at usaig.com.

Step 3

Receive your **SafetyPoints**
code by email and register
your points online with your
selected provider.

Enhance your UAS operation
with industry-leading services at reduced
out-of-pocket cost!

USI is widely recognized as an industry leader in flight safety solutions for integrating and operating UAS for civil or commercial purposes.

USI's Performance Vector Unmanned Remote Pilot training and support services were developed to address a wide spectrum of UAS operational safety needs.
